Account No: 155 778 722
Please put your name
in the reference field so
we can identify your
payment

ABOUT THIS FORUM

Concrete is used throughout the World every day in countless diverse applications but it is critically important in terms of performance and durability to understand **why the mix design and placement** need to be appropriately tailored to **suit each application**. The inimitable Geoff Ayton will explore what it takes to be trusted with a concrete pavement.

TfNSW CRCP Specification Updates will be presented in detail by Basil Ben of TfNSW. Basil will provide details of the specification updates which included significant collaboration with ASCP.

Whilst well known to ASCP members, ASCP President Justin Moss will introduce **the new ASCP Executive Director**, Craig Heidrich.

An **open mic online collaboration session** will take place exploring the following:

- **What are we doing well as an industry?** Where could we improve our investment, quality, training?
- **What could ASCP do better** for individual members, contractors, government, designers and suppliers?
- **What is your perception of the way this industry operates?** (For members under 30!)
- **What tangible value do Surveillance Officers and Independent Certifiers** bring to the delivery of major projects today?

Advanced responses can be submitted here.

CONTINUING PROFESSIONAL DEVELOPMENT

Attendance at this event may be eligible for credit towards Engineers Australia and other organisations' Continuing Professional Development requirements.

ASCP CORPORATE MEMBERS

ASCP Corporate Members support our aims and objectives and contribute through participation, sharing of technical and industry information, and financial contributions.

Corporate Members are entitled to representative members, discounts on other memberships and event fees, discounts on Grey Card course fees, and discounts for exhibition spaces at events. They are recognised on our web site, event brochures and newsletters.
